KENWOOD

Special tools like radio release keys may be required.

1. Remove the original trim frame (surrounding the radio)
- 1a. unscrew the 4 screws fixing the OEM-Radio. (keep the screws, they will be needed for further installation) Disconnect all wires connected with the OEM-Radio and finally remove it.

2. Place the new mounting frame (see photo) into the dashboard.

3. Fix the new mounting frame with the 4 original screws.
- 3.a Place the metal frame inside the mounting frame

Mount the metal brackets with the double DIN head unit

The position of the copper coloured holder can be adjusted to your needs for perfect fit. (see sample)

4. Connect all required circuit points and push the double DIN head unit until it snaps in.
5. Place the fascia plate to finish installation.

All installation work must be performed by a qualified professional installer only. The manufacturer / dealer is not liable for any kind of incidental or indirect damages.
