Garmin Ltd. and its subsidiaries ("Garmin") grant you a limited license to use the software embedded in this device (the "Software") in binary executable form in the normal operation of the product. Title, ownership rights, and intellectual property rights in and to the Software remain in Garmin and/or its third-party providers.

You acknowledge that the Software is the property of Garmin and/or its third-party providers and is protected under the United States of America copyright laws and international copyright treaties. You further acknowledge that the structure, organization, and code of the Software, for which source code is not provided, are valuable trade secrets of Garmin and/or its third-party providers and that the Software in source code form remains a valuable trade secret of Garmin and/or its third-party providers. You agree not to decompile, disassemble, modify, reverse assemble, reverse engineer, or reduce to human readable form the Software or any part thereof or create any derivative works based on the Software. You agree not to export or re-export the Software to any country in violation of the export control laws of the United States of America or the export control laws of any other applicable country.

NAVTEQ® End-user License Agreement

The software embedded in your Garmin product (the "Software") is owned by Garmin Ltd. or its subsidiaries ("Garmin"). The third-party map data embedded in or accompanying your Garmin product (the "Map Data") is owned by NAVTEQ North America LLC and/or its affiliates ("NAVTEQ") and is licensed to Garmin. Garmin also licenses information, text, images, graphics, photographs, audio, video and other applications and data from third-party data providers ("Third-Party Content Data"). The Map Data and Third-Party Content Data are collectively the "Data". Both the Software and Data are protected under copyright laws and international copyright treaties. The Software and Data are licensed, not sold. The Software and Data are provided under the following licence and are subject to the following terms and conditions which are agreed to by the End User ("you" or "your"), on the one hand, and Garmin and its licensors (including their licensors and suppliers) and affiliated companies on the other hand.

IMPORTANT: READ THIS LICENCE CAREFULLY

BEFORE USING THIS PRODUCT. INSTALLING, COPYING OR OTHERWISE USING THIS PRODUCT INDICATES YOUR ACKNOWLEDGEMENT THAT YOU HAVE READ THIS LICENCE AND AGREE TO ITS TERMS. IF YOU DO NOT AGREE, RETURN THE COMPLETE PRODUCT WITHIN 7 DAYS OF THE DATE YOU ACQUIRED IT (IF PURCHASED NEW) FOR A FULL REFUND TO THE DEALER FROM WHICH YOU PURCHASED THIS PRODUCT.

Licence Terms and Conditions

Garmin ("we" or "us") provides you with storage media containing the computer Software (the "Software") and the embedded or accompanying Data, including any "online" or electronic documentation and printed materials (together called the "Product" for purposes of this Licence Agreement), and grants you a limited, non-exclusive licence to use the Product in accordance with the terms of this Agreement. You agree to use this Data together with the Garmin product solely for personal use, or if applicable, for use in your business' internal operations and not for service bureau, time-sharing, resale or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you may copy this Data only as necessary for your use to (i) view it and (ii) save it, provided that you do not remove any copyright notices that appear and do not modify the Software or Data in any way. You agree not to otherwise reproduce, copy, modify, decompile, disassemble, reverse engineer or create derivative works of any portion of the Product and you may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. Garmin also reserves the right to discontinue offering any Data supplied by any third-party supplier if such supplier ceases to supply such content or Garmin's contract with such supplier terminates for any reason.

Restrictions. Except where you have been specifically licensed to do so by Garmin and without limiting the preceding paragraph, you may not use this Data with any products, systems or applications installed or otherwise connected to or in communication with vehicles and which are capable of dispatch, fleet management or similar applications where the Data is used by a central control centre in dispatching a fleet of vehicles. In addition, you are prohibited from renting or leasing the Data or the Garmin products containing the Data to any other person or third party. Only those hire car companies that are specifically authorised by Garmin in writing to rent Garmin products containing the Data to their rental customers are permitted to rent out such products.

nüMaps™ Lifetime. If you purchase a nüMaps Lifetime subscription (sold separately), you will receive up to four (4) Map Data updates per year, when and as such updates are made available on Garmin's website, for one (1) compatible Garmin product until your product's useful life expires or Garmin no longer receives Map Data from NAVTEQ, whichever is shorter. The updates you receive under the subscription will be updates to the same geographic Map Data originally included with your Garmin product when originally purchased. In some instances, your Garmin product might not have sufficient memory remaining for you to load an update to the same Map Data originally included with your Garmin product, in which case you will need to either (a) select reduced Map Data coverage for your updates or (b) purchase separately a microSD card or an SD card (as applicable to your Garmin product) and load all or a portion of the Map Data coverage for your updates to the card and insert the card into the microSD card or SD card slot contained in your Garmin product. Garmin may terminate your nüMaps Lifetime subscription at any time if you violate any of the terms of this Agreement or your subscription. Your nüMaps Lifetime subscription may not be transferred to another person or another Garmin product.

From the Main page, touch Settings > Navigation > trafficTrends > Enabled.

Using ecoRoute™

The ecoRoute feature calculates your vehicle fuel economy, carbon footprint, and the fuel price of navigating to a destination, and offers tools for improving fuel efficiency.

About ecoRoute

The data provided by the ecoRoute feature is only an estimate. The data is not actually read from your vehicle. To receive more-accurate fuel reports for your specific vehicle and driving habits, calibrate the fuel economy.

Traffic Information

Using the built-in FM traffic receiver, the navigation system can receive and use traffic information. When a traffic message is received, you can see the event on the map and change your route to avoid the traffic incident. Traffic information is not available in all areas.

Understanding FM TMC Traffic

FM TMC traffic receivers receive traffic information that is broadcast over the FM Radio Data System. The FM TMC subscription activates automatically after your navigation system acquires satellite signals while receiving traffic signals from the service provider. You can add other FM TMC subscriptions at any time. Check the Garmin Web site at www.garmin.com/kenwood for other available services.

Traffic in Your Area

When you are receiving traffic information, a traffic icon appears in the upper-left corner of the Map page. The traffic icon changes color to indicate the severity of traffic conditions on your route or on the road you are currently traveling.

Color	Description	Meaning
Green	Low severity	Traffic is flowing normally.
Yellow	Medium severity	Traffic is slightly congested.
Red	High severity	Traffic is heavily congested or stopped.
Gray	No data	Traffic data has not updated.

Traffic on Your Route

When calculating your route, the navigation system examines the current traffic and automatically optimizes the route for the shortest time. If a severe traffic delay occurs on your route while you are navigating, the navigation system automatically recalculates the route. You might still be routed through traffic if no better alternative routes exist.

If a non-severe traffic delay occurs on your route, the traffic icon shows how much time the delay has added to your route. This time is already included in your estimated arrival time.

To manually avoid traffic on your route:

- 1 On the Map page, touch the traffic icon.
- 2 Touch Traffic On Route.
- 3 Touch the arrows to view other traffic delays on your route, if necessary.
- 4 Touch Avoid to avoid the traffic delay.

Safety Cameras

WARNING

Garmin and Kenwood are not responsible for the accuracy of, or the consequences of using, a custom point of interest or a safety camera database.

Safety camera information is available in some locations. Go to <http://my.garmin.com> for availability. For these locations, the navigation system includes the locations of hundreds of safety cameras. Your navigation system alerts you when you are approaching a safety camera and can warn you if you are driving too fast. The data is updated at least weekly, so you always have access to the most up-to-date information.

You can purchase a new region or extend an existing subscription at any time. Each region that you purchase has an expiration date.

Some custom POI databases contain alert information for points such as safety cameras and school zones. The navigation system can notify you when you approach one of these points. You are responsible for ensuring that your use of safety camera information is lawful in your area.

NOTICE

Garmin is not responsible for the consequences of using the safety camera database or other custom POI databases, or for the accuracy of the safety camera or other custom POI database.

After downloading your POI database, use the Garmin POI Loader to install the POIs onto a USB mass storage device. Use the USB mass storage device to load the POIs. The POI Loader is available at www.garmin.com/products/poiloader. Refer to the POI Loader Help file for more information; click Help to open the Help file.
